RUSA #1749 This route is a flatlander's dream! With only 800' of climbing, it starts in irrigated farm country and skirts the east side of the Salton Sea on lightly traveled Hwy. 111. The entire route is below sea level and a ideal route for your single speed or tandem rando bike. This is desert country, so check the temps and winds before your planned ride.

Ride report or informational video of this route is available on the San Diego Randonneurs website: <http://www.sandiegorandonneurs.com>

*Good Riding,
